

Meridian Earthworks

Company Profile

Meridian Earthworks started operations in February 2009 when Pat Whelan and H van der Westhuizen decided to apply their combined fifty years of experience in the bulk earthworks industry in the attempt to form our own company. The company was registered in May 2009.

Des Volker joined Meridian Earthworks on 1 October 2009, his experience in earthworks, demolitions, crushing and screening is of value to the company.

We have to date completed numerous contracts with a combined value in excess of eight million rand.

Company Profile

Meridian Earthworks

Company Profile

The company as yet, does not own any construction equipment but we have over the years built up an extremely good working relationship with major plant hire companies and machinery is readily available and well maintained. This allows us to minimize overheads and offer the client a cost effective package.

Our track record with the professional teams and clients is a good indication of our professional approach and commitment to quality that we apply to every contract we undertake.
